WHAT IS TRADING

Trading is the process of buying and selling financial assets such as shares, forex (currencies), commodities (like gold or oil), or cryptocurrencies with the objective of making a profit.

Traders attempt to take advantage of price movements in the market: they buy when prices are low and sell when prices are high, or sell when prices are high and buy again when prices are low.

There are different types of trading styles, such as:

DAY TRADING – Buying and selling within the same day

SWING TRADING – Holding trades for a few days or weeks.

POSITION TRADING – Long-term trading, where trades are held for months or even years.

SCALPING - Making multiple small trades throughout the day

ADVANTAGES OF TRADING

POTENTIAL FOR PROFIT :-

If done wisely, trading can generate good returns, sometimes faster than traditional investments.

FLEXIBLE SCHEDULE :-

You can trade from anywhere with an internet connection making it perfect for those who value freedom.

LIQUIDITY :-

Markets like forex and stocks are highly liquid, meaning you can easily buy and sell.

VARIETY OF OPPORTUNITIES :-

Markets like forex and stocks are highly liquid, meaning you can easily buy and sell.

SHORT-TERM OR LONG-TERM :-

You can trade to earn quick profits or to build wealth over time it depends on your strategy.

WHAT IS FOREX TRADING

Forex trading (short for foreign exchange trading) is the process of buying and selling currencies from around the world with the aim of making a profit.

For example, if you believe that the value of the Euro (€) will rise compared to the US Dollar (\$), you can buy euros and later sell them at a higher price.

Forex is the largest financial market in the world, with trillions of dollars traded every day. It operates 24 hours a day, five days a week, because currencies are traded globally across different time zones.
